

Definitive Healthcare Reports Financial Results for Third Quarter Fiscal Year 2021

November 8, 2021

Third quarter revenue grew 43% year-over-year to \$43.1 million

FRAMINGHAM, Mass., Nov. 08, 2021 (GLOBE NEWSWIRE) -- Definitive Healthcare Corp. ("Definitive Healthcare") (Nasdaq: DH), an industry leader in healthcare commercial intelligence, today announced financial results for the quarter ended September 30, 2021.

Third Quarter 2021 Financial and Other Recent Highlights:

Financial Highlights:

- Revenue was \$43.1 million, an increase of 43% from \$30.1 million in Q3 2020.
- GAAP Net loss was \$(21.0) million, or 49% of revenue, compared to \$10.0 million, or 33% of revenue in Q3 2020.
- Adjusted Net Income was \$2.2 million, compared to \$5.1 million in Q3 2020.
- Adjusted EBITDA was \$14.4 million, or 33% of revenue, compared to \$14.5 million, or 48% of revenue in Q3 2020.
- Cash flow from operations was (\$0.9) million in the quarter or -2% of revenue. For the trailing twelve-month period, cash flow from operations was \$29.7 million, or 19% of revenue.
- Unlevered free cash flow was \$11.5 million in the quarter, or 27% of revenue. For the trailing twelve-month period, unlevered free cash flow was \$59.1 million, or 38% of revenue.

"I am extremely pleased with our performance in our first quarter as a public company," said Jason Krantz, founder and CEO of Definitive Healthcare. "We saw strong revenue growth and continued to produce exceptional results. Our strength was broad-based across all of our segments, and we continue to innovate to build the next generation of healthcare commercial intelligence solutions. I want to thank all of our employees who have worked so diligently to help our customers create new paths to commercial success in the healthcare market."

Recent Business and Operating Highlights:

- Definitive Healthcare successfully completed its initial public offering in September after selling 17,888,888 shares at a price of \$27.00 per share, for aggregate gross proceeds of approximately \$483 million.
- The company ended the quarter with 377 customers with \$100,000 or greater in annual recurring revenue, a 49% increase from 252 in Q3 2020.
- During the third quarter, the company brought on multiple new customers including:
 - A large pharmaceutical technology company, who plans to use Definitive Healthcare commercial intelligence on executives, affiliations, procedure volumes, and doctors to accelerate its push into the hospital and IDN market for a new drug delivery implantable device.
 - A market leader in the EHR market, who plans to use the Definitive Healthcare platform to identify which practices are using its competition's software, understand usage data including hospital bed counts and clinical metrics, and gain insight into the nature of the practices' patients using claims data.
 - One of the world's leading venture capital firms, who will use Definitive Healthcare commercial intelligence to help them size and evaluate the market for potential investments in the healthcare space.
 - One of the world's largest global logistics providers, who subscribed to the Definitive Healthcare platform to help validate location and address data to ensure accurate package delivery to physicians and other healthcare providers.
- The company continues to deliver product innovations in response to customer demand. Some of these recent innovations include:
 - An expansion of the PhysicianView product to include new intelligence around physician specialties, which allows

clients to precisely target healthcare providers based on specific areas of focus. Users can now leverage claims-based specialty data to identify individual physicians, which means companies can sharpen their sales strategies with a better picture of their audience.

- An expansion of the HospitalView product to include new intelligence around organization charts. This new feature enables users to easily map out a hospital's different departments and subdepartments, understand the many layers of management, and identify the right people who may be searching for their product or service.
- In the Monocl product line, the company enhanced its ExpertInsight product by expanding the expert profiles with new indexed medical keywords to publications, clinical trials, grants and industry payments. These additions make it even easier for medical affairs professionals to identify the right clinical and scientific expert to assist in product development.

Forward-Looking Statements

This press release may include forward-looking statements that reflect our current views with respect to future events and financial performance. Such statements are provided under the "safe harbor" protection of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that do not relate solely to historical or current facts, and can generally be identified by words or phrases written in the future tense and/or preceded by words such as "likely," "should," "may," "anticipates," "intends," "plans," "seeks," "believes," "estimates," "expects" or similar words or variations thereof, or the negative thereof, references to future periods, or by the inclusion of forecasts or projections, but these terms are not the exclusive means of identifying such statements. Examples of forward-looking statements include, but are not limited to, statements we make regarding our outlook, financial guidance, the market, industry and macroeconomic environment, our business, growth strategies, product development efforts and future expenses, and statements reflecting our expectations about our ability to execute on our strategic plans, achieve future growth and

profitability and achieve our financial goals.

Forward-looking statements in this press release are based on our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, by their nature, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. As a result, our actual results may differ materially from those contemplated by the forwardlooking statements. Important factors that could cause actual results to differ materially from those in the forward-looking statements include the following: an outbreak of disease, global or localized health pandemic or epidemic, or the fear of such an event (such as the COVID-19 global pandemic), including the global economic uncertainty and measures taken in response; the short- and long-term effects of the COVID-19 global pandemic, including the pace of recovery or any future resurgence; our inability to generate substantially all of our revenue and cash flows from sales of subscriptions to our platform and any decline in demand for our platform and the data we offer; the competitiveness of the market in which we operate and our ability to compete effectively; the failure to maintain and improve our platform, or develop new modules or insights for healthcare commercial intelligence; the inability to obtain and maintain accurate, comprehensive or reliable data, which could result in reduced demand for our platform; the risk that our recent growth rates may not be indicative of our future growth; the inability to achieve or sustain profitability in the future compared to historical levels as we increase investments in our business; the loss of our access to our data providers, which could negatively impact our platform; the failure to respond to advances in healthcare commercial intelligence; an inability to attract new customers and expand subscriptions of current customers; the risk of cyber-attacks and security vulnerabilities; and if our security measures are breached or unauthorized access to data is otherwise obtained, our platform may be perceived as not being secure, customers may reduce the use of or stop using our platform, and we may incur significant liabilities.

For additional discussion of factors that could impact our operational and financial results, refer to our final prospectus filed with the U.S. Securities and Exchange Commission ("SEC") on September 16, 2021, our Quarterly Report on Form 10-Q for the three months ended September 30, 2021 that will be filed following this earnings release, and our subsequent SEC filings, which are or will be available on the Investor Relations page of our website at ir.definitivehc.com and on the SEC website at www.sec.gov.

Additional factors or events that could cause our actual performance to differ from these forward-looking statements may emerge from time to time, and it is not possible for us to predict all of them. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, our actual financial condition, results of operations, future performance and business may vary in material respects from the performance projected in these forward-looking statements.

Any forward-looking statement made by us speaks only as of the date on which it is made. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

Basis of Presentation

A Reconciliation of GAAP to Non-GAAP results has been provided in the financial statement tables included at the end of this press release. An explanation of these measures is also included below under the heading "Non-GAAP Financial Measures."

Non-GAAP Financial Measures

We have presented supplemental non-GAAP financial measures as part of this earnings release. We believe that these supplemental non-GAAP financial measures are useful to investors because they allow for an evaluation of the company with a focus on the performance of its core operations, including more meaningful comparisons of financial results to historical periods and to the financial results of peer and competitor companies.

We refer in this earnings release to Unlevered Free Cash Flow, Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Gross Profit, Adjusted Gross Margin, Adjusted Operating Income and Adjusted Net Income as non-GAAP financial measures. These non-GAAP financial measures are not prepared in accordance with generally accepted accounting principles in the U.S., ("GAAP"). These are supplemental financial measures of our performance and should not be considered substitutes for net (loss) income, gross profit or any other measure derived in accordance with GAAP.

We define Unlevered Free Cash Flow as net cash provided from operating activities less purchases of property and equipment and other assets, plus cash interest expense, cash payments related to transaction related expenses and cash payments related to other non-recurring items. Unlevered Free Cash Flow does not represent residual cash flow available for discretionary expenditures since, among other things, we have mandatory debt service requirements.

We define EBITDA as earnings before debt-related costs, including interest expense, net and loss on extinguishment of debt and depreciation and amortization. Adjusted EBITDA is defined as EBITDA adjusted to exclude certain items of a significant or unusual nature, including equity-based compensation, transaction expenses and other non-recurring expenses. Adjusted EBITDA Margin is determined by calculating the percentage Adjusted EBITDA is of revenue. Adjusted EBITDA and Adjusted EBITDA Margin are key metrics used by management and our board of directors to assess the profitability of our operations. We believe that Adjusted EBITDA and Adjusted EBITDA Margin provide useful measures to investors to assess our operating performance because these metrics eliminate non-recurring and unusual items and non-cash expenses, which we do not consider indicative of ongoing operational performance. We believe that these metrics are helpful to investors in measuring the profitability of our operations on a consolidated level.

We define Adjusted Gross Profit as revenue less cost of revenue (excluding acquisition-related depreciation and amortization and equity compensation costs) and Adjusted Gross Margin means Adjusted Gross Profit as a percentage of revenue. Adjusted Gross Profit differs from gross profit, in that gross profit includes acquisition-related depreciation and amortization expense and equity compensation costs. Adjusted Gross Profit and Adjusted Gross Margin are key metrics used by management and our board of directors to assess our operations. We exclude acquisition-related depreciation to the cost of operating our business on an ongoing basis. A small quantity

of equity-based compensation is included in cost of revenue in accordance with GAAP but is excluded from our Adjusted Gross Profit calculations due to its non-cash nature.

We define Adjusted Operating Income as income (loss) from operations plus acquisition related amortization, equity-based compensation, transaction expenses and other non-recurring expenses.

We define Adjusted Net Income as Adjusted Operating Income less interest expense, net, foreign currency loss (gain) and including the incremental tax effects of adjustments to arrive at Adjusted Operating Income. We define Adjusted Net Income Per Share as Adjusted Net Income divided by diluted weighted average outstanding shares.

Our use of these non-GAAP terms may vary from the use of similar terms by other companies in our industry and accordingly may not be comparable to similarly titled measures used by other companies and are not measures of performance calculated in accordance with GAAP. Our presentation of these non-GAAP financial measures are intended as supplemental measures of our performance that are not required by, or presented in accordance with, GAAP. These non-GAAP financial measures should not be considered as alternatives to (loss) income from operations, net (loss) income, gross profit, earnings per share or any other performance measures derived in accordance with GAAP, or as measures of operating cash flows or liquidity.

We do not provide a quantitative reconciliation of the forward-looking non-GAAP financial measures included in this press release to the most directly comparable GAAP measures due to the high variability and difficulty to predict certain items excluded from these non-GAAP financial measures; in particular, the effects of stock-based compensation expense, taxes and amounts under the exchange tax receivable agreement, deferred tax assets and deferred tax liabilities, and restructuring and transaction expenses. We expect the variability of these excluded items may have a significant, and potentially unpredictable, impact on our future GAAP financial results.

In evaluating our non-GAAP financial measures, you should be aware that in the future we may incur expenses similar to those eliminated in these presentations.
